

Prajapati Krish

UI/UX DESIGNER

To obtain a challenging UI/UX Designer position where my creativity, problem-solving skills, and expertise in designing Engaging and user-friendly interfaces can be utilized to enhance User experiences and drive business objectives.

PROJECTS

Drone-Web Page

The "Drone Explorer" static web page project involved designing a visually appealing and user-friendly landing page for a drone product. The goal was to create a static web page that effectively showcases the drone's features, specifications, and benefits to potential customers.

TRAVEL-APP UI KIT

Designed and developed a comprehensive UI kit for a travel app using Figma, encompassing a range of meticulously crafted components, screens, and interactive elements. The kit features intuitive navigation, visually appealing layouts, and seamless user experience considerations tailored to modern travel applications.

RANTALE-CAR/DRIVER APP WIREFRAMING

The "Rantale" project involved designing wireframes for a comprehensive car and driver service application. The primary objective was to create a user-friendly and intuitive interface that simplifies the process of booking a car or driver service for users. The wireframes serve as a blueprint for the app's user experience (UX) and interface design (UI).
